REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims are allowed in view of the applicants' argument provided in their response and the Declaration under 37 CFR 1.132 submitted on June 23, 2006. The comparative results presented in the Declaration show that the copolymer produced by pearl polymerization method provides unexpected improvement of transportability characteristic over those using a common solution technique. Sampei (US Patent No. 6,190,854) may disclose the copolymer having the formula presented in the claimed invention, but fails to teach or fairly suggest the pearl polymerization process used in the present invention. Accordingly, the improvement of the results would have been found unexpected by the worker of ordinary skill in the art, and obviates any rejection under 35 USC 103(a) set forth in the office action of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
